

## GRANULAR SOFTENING CARTRIDGE CSR 10"

- reduces water hardness
- prevents scale formation on heating elements
- removes mechanical impurities with dimensions above 5 microns

### TECHNICAL SPECIFICATION

PARAMETER	VALUE
Length	252 mm
Outer diameter	68 mm
Filter accuracy	5 microns
Maximum working pressure	6 bar
Maximum working temperature	38°C
Maximum flow	3,8 l/min
Medium	Ion exchange resin and melt-blown polypropylene
Capacity	150 liters* or 3 months
Certificates	TUV Hygienic Certificate BPA free

\* at water hardness 178 mg/l CaCO<sub>3</sub>
